Suggested Project Report

Project Title	As required, but succinct would be appreciated.
Reasons for CHCP to Accept Suggested Project	Provide a detailed technical justification including discussion of any unique project issues, and describe how the candidate's judgement was applied during the project, in less than two hundred (200) words.
Associated Logbook Entry	Use the same year and short title as provided in the CHCP – Hydrographic and Offshore Surveyor Experience Logbook – Summary. There should be a logbook entry associated with the selected project, if not then explain why.
Project Period(s)	Must be a minimum of four (4) weeks duration in the last five (5) years. Period(s) provided must coincide with the dates provided in the associated CHCP – Hydrographic and Offshore Surveyor Experience Logbook entry, if applicable.
Person Who Peer-Reviewed or Supervised Work and Subsequent Report	May be the same supervisor who signed the CHCP – Hydrographic and Offshore Surveyor Experience Logbook entry and if so should be stated. If another person, candidate shall provide name and full contact details.
Project Description and Purpose	Briefly describe the hydrographic or offshore survey operation(s) and purpose(s) in less than one hundred (100) words.
Candidates Responsibilities / Duties / Role	This may be the same or similar to the CHCP – Hydrographic and Offshore Surveyor Experience Logbook entry.
Type of Hydrographic or Offshore Surveying Involved	This may be the same or similar to the CHCP – Hydrographic and Offshore Surveyor Experience Logbook entry for "Description of Work".
Project Client	Specify the end client or end user of the hydrographic or offshore survey work.

When submitting this application please remove the instructions included on the right side of the above table and enter your information. This paragraph can also be removed from the submitted application.
