

**Daniel Roberge**, international consultant in land administration

Mr. Roberge holds a bachelor degree in Geodesy from Laval University, Canada and a graduate diploma in International Administration from the Ecole Nationale d'administration Publique, Quebec, Canada.

After carrying out several large-scale projects in the private sector, he joined Québec's Government in 1993, where he held many managing positions, namely as Head of the Cadastral registration service, Director of the Office of the Surveyor General of Quebec, and Director of the Digital Economy. During this period he namely led the implementation of the Québec's new cadastre, the conception, development and implementation of the Register of the Domain of the State and the online managing system of the Archives of the Surveyor general of Quebec. From 2013 to 2016, he has worked for the World Bank as Senior Land Administration specialist, coordinating and supervising land projects in Europe, Middle-East and Africa.

During his career, Mr. Roberge has been very active at the international level, namely in the International Federation of Surveyors (FIG) as Canadian delegate and chair of Commission 7 (Cadastre and land management). He also participated in the founding of the Federation des géomètres francophones (FGF).

At Canadian level, he has been member of the Board of the Champlain Branch of the Canadian Institute of Geomatics for many years and co-chaired two editions of the very successful GeoConference in 2007 and 2014.

Mr. Roberge is now consultant in land administration, working mainly abroad.
