

Brent Taylor, BCLS, CLS

Brent is a land surveyor working in private practice throughout BC with emphasis on projects on southern Vancouver Island and the Gulf Islands. He was commissioned as a British Columbia land surveyor in 1984 and a Canada Lands Surveyor in 1995. Brent is currently the managing director of Polaris Land Surveying Inc and has been actively involved in providing land surveying services to a variety of clients and industries since 1981.

After 40 years in the profession Brent has the experience and knowledge to deliver educational seminars and workshops to clients, land surveyors and other professional organizations. Brent is often called upon to provide expert reports for Court cases and subject matter expertise in the development of new programs and applications.

When Brent founded Polaris Land Surveying in 2001 he set up a structure where there was freedom to spend time at sites rather than being bound to an office with paper. The technology was not yet in place to fully support this however by 2007 Polaris was both office free and paper free. All the Polaris records are digitally stored and the 30 members of the Polaris team use tools such as SharePoint, One Drive, Teams and Outlook to manage data and communicate with each other and clients.
